## One way children learn vocabulary is from listening to stories.

They listen to understand what is being said, which helps them learn new words. Stories aren't just found in books. You can tell stories about your day, your memories from growing up, or something about your child's life. You can also use wordless picture books and make up a story together. With wordless books, you can develop imagination along with language and vocabulary skills. Make it fun! Having fun with words helps your child become more aware of words and eager to learn more.
